

WEBINAR

Luca De Carli, DG CLIMA

Jesper Thomassen, Chair of the ENVI WG of CEFS

9 November

15.00 – 16.15

The legislative discussions on the draft EU Climate Law are well advanced. However, the real work will start with the implementation of the EU Climate Law. This webinar looks at the short and medium-term steps and orientations once legislative discussions are over. CEFS wants to open the debate and provide insights in what the EU sugar sector and the local agricultural communities need in terms of framework and support to pave the way to the overall carbon neutrality goal. If you want to know more take a look at this [video](#).

- **‘The Climate law, a starting point for the real work’**
Introduction by the moderator
- **‘Implementing the Climate Law:
key steps and orientations in the short and medium-term’**
